ROYAL ASIATIC SOCIETY LIBRARY

No. P-8/B of 1938.

Office of the Surgeon-General
with the Government of Bombay :
Bombay, 29th March 1938.

From

Major-General H. C. BUCKLEY, M.D., F.R.C.S.E.,
K.H.P., I.M.S.,
Surgeon-General with the Government of Bombay,
Bombay No. 1 ;

To

The SECRETARY to GOVERNMENT,
General Department,
Bombay.

Subject.—*Annual Report on Mental Hospitals in the Bombay Province for the year 1937.*

Sir,

I have the honour to submit the Annual Report on Mental Hospitals in the Bombay Province for the year 1937.

Buildings.

2. *Major Works.*—During the year under report, funds amounting to Rs. 2,43,600 were provided by Government for the expansion of the Central Mental Hospital, Yeravda, Mental Hospitals, Ahmedabad and Dharwar. The work of expansion at these hospitals has been commenced by the Public Works Department and will be completed by the end of March 1938. The cost of the expansion at Yeravda is estimated at Rs. 2,62,147, that at Ahmedabad Rs. 31,989 and at Dharwar Rs. 14,766.

Minor Works.—Minor Works costing about Rs. 15,448 were sanctioned at the several Mental Hospitals during 1937.

The buildings of the various Mental Hospitals have been kept in good condition, the necessary repairs having been carried out by the Public Works Department.

Water Supply.

3. The water supply at the Mental Hospitals at Yeravda, Thana and Ahmedabad has been good and sufficient throughout the year under report. At Ratnagiri, the supply was good but insufficient. An artisan

well is being bored to meet the additional requirement of water. At Dharwar, the Municipal water supply is insufficient and also not fit for drinking. Water from well, therefore, had to be brought from outside by the hospital cart.

Accommodation.

4. During the year under report the overcrowding at all the Mental Hospitals continued as can be seen from the sub-joined table showing accommodation and population during the first week of January 1938.

Mental Hospital.	Present accommodation (1st week of January 1938).			Population (1st week of January 1938).		
	Male.	Female	Total.	Male.	Female.	Total.
Thana	240	78	318	270	152	422
Ratnagiri	134	42	176	156	43	199
Yeravda	547	350	897*	701	429	1,130
Dharwar	118	53	171	152	57	209
Ahmedabad	136	31	167	227	72	299
Total ..	1,175	554	1,729	1,506	753	2,259

*Includes accommodation of 80 beds in the temporary structure constructed in 1937.

When the work of expansion of the hospitals referred to in paragraph 2 above will be completed the accommodation will be increased by 378 beds as shown below :—

Central Mental Hospital, Yeravda	..	250 beds.
Mental Hospital, Ahmedabad	..	100 ,,
Mental Hospital, Dharwar ..	..	28 ,,
Total	..	378

In order to deal with the overcrowding at the Central Mental Hospital, Yeravda, an additional temporary structure to house 80 patients has been constructed there in February 1938. Taking these 80 beds into account the total accommodation at all the Mental Hospitals by the end of March 1938 will be 2,187 beds or 2,169 beds if the accommodation at Thana is

restricted to 300 beds as originally proposed. It will thus be seen that with all the increase in the accommodation, there will be some patients in excess and to meet the situation, proposals for further increase in the accommodation are under the consideration of Government.

Statement No. I.—*Population.*

5. The following table shows the population, admission and the daily average strength of patients in the Mental Hospitals during the year under report and the previous year :—

	1936			1937		
	Male.	Female.	Total.	Male.	Female.	Total.
Total population.	2,006	894	2,900	2,087	950	3,037
Total admissions.	618	218	836	685	251	936*
The daily average strength ..	1,412·7	693·5	2,106·2	1,459·0	731·7	2,190·7

*Of these 15 males and 4 females were readmitted.

From the above table it will be seen that the population at the Mental Hospitals is increasing year by year in spite of the fact that during the year under report admissions were generally limited to dangerous, degraded and suicidal cases.

Discharges and Cures.

6. During the year 1937, 322 patients were discharged as " cured ", 136 as " improved ", 103 as " not improved " and 45 discharged " otherwise ".

Sickness and Mortality.

7. The daily average number of sick treated in Mental Hospitals was 69·8 against 78·2 in the previous year. The percentage of sickness to the daily average strength was 3·2 against 3·7 in 1936. The health of the patients was generally good at all the Mental Hospitals.

8. The total number of deaths during the year under review was 171 against 203 in 1936. The ratio of deaths percentage to the daily average strength was 7·8 against 9·6 in the previous year. The subjoined table gives the ratio of deaths percentage to the daily average

strength at the various Mental Hospital during 1937 and the previous year :—

Mental Hospitals.	1936			1937		
	Male.	Female.	Total.	Male.	Female.	Total.
Thana	23·5	16·0	21·1	13·5	10·3	12·4
Ratnagiri	4·9	8·7	5·8	3·4	9·1	4·7
Yeravda E.	3·0	5·1	3·8	5·2	3·6	4·6
Yeravda I.	6·0	6·5	6·2	7·9	5·5	7·0
Dharwar	4·3	..	3·2	1·3	3·6	1·9
Ahmedabad	12·6	7·9	11·5	11·2	12·9	11·6
Total ..	10·3	8·2	9·6	8·2	7·1	7·8

There is a marked decrease in the death rate at the Mental Hospital, Thana. This is mainly due to the strict attention to personal hygiene of the patients and general sanitary matters enforced. The work of the anti-malaria squad was very satisfactory. The improved quality of food and milk supplied to the patients played no small part in raising the general vitality of the patients.

The chief causes of deaths among the patients were dysentery, pneumonia, syncope, tuberculosis, phthisis, status epilepticus, inanition, old age, etc.

Statement No. II.

9. During the year under report, 377 cases were observed at the several Mental Hospitals. Of these 298 were certified and admitted into Mental Hospitals and 51 released as uncertifiable.

Statement No. III.—*Criminal Insanes.*

10. The total number of criminal insanes confined in the Mental Hospitals was 144 (129 males and 15 females), with a daily average number of 95·7.

Statement No. IV.—*Religion.*

11. Of the total number of patients (936) admitted for treatment during the year under report, 654 were Hindus, 147 Mahomedans, 20 Europeans and Anglo-Indians, 53 Indian Christians and 62 belonged to other Castes.

STATEMENT No. V.—*Ages of Insanes admitted.*

12. The ages of insanes admitted for treatment were as shown below :—

Ages.	Number of insanes.
Below 20 years	50
Between 20 and 40 years	694
Between 40 and 60 years	179
Upwards of 60 years	13
Total ..	936

STATEMENT No. VI.—*Forms of Mental Disorder.*

13. Among the forms of Mental Disorder treated during the year under report, the principal were :—

	Number of cases.
Mania	626
Melancholia	576
Schizophrenia including Dementia Præcox.	384
Manic Depressive Insanity	292
Mental Deficiency..	206
Paronoia	197
Canabis Indica Psychosis	162
Epilepsy and Epileptic insanity ..	100

STATEMENT No. VII.—*Probable causes of Insanity among Patients.*

14. The principal pre-disposing and exciting causes among the patients admitted for treatment were :—

Causes.	Number of cases.
Mental Stress	419
Toxins	147
Physical	114
Bodily illness	129
Hereditary pre-disposition	81
Epilepsy	48

STATEMENT No. VIII.—*Cash Accounts.*

15. *Receipts.*—The receipts from paying patients during the year amounted to Rs. 2,00,055, against Rs. 1,89,712 during 1936. The increase is partly due to the provision of special accommodation and

facilities at the Central Mental Hospital, Yeravda, for well-to-do patients who are prepared to pay at increased rates for special amenities. The value of stores received from the manufacturing departments less cost of raw materials was Rs. 22,217 and miscellaneous receipts amounted to Rs. 1,820. The total receipts under the three heads amounted to Rs. 2,24,092 against Rs. 2,11,995 in 1936.

16. The gross expenditure for maintaining the Mental Hospitals amounted to Rs. 9,11,806 against Rs. 7,50,948. Deducting the receipts from the actual expenditure, the net cost to Government was Rs. 4,63,622 against Rs. 3,26,958 in 1936. The increase in the expenditure is mainly due to the expenditure during the year on the works of expansion of the Mental Hospitals at Yeravda, Ahmedabad and Dharwar.

17. The following table shows the cost per patient per annum of the daily average strength in the Mental Hospitals, during the year under report and the preceding year :—

Mental Hospitals.	1936.*	1937.*	Remarks.
	Rs.	Rs.	
Thana	225	248†	
Ratnagiri	179	185	
Central Mental Hospital, Yeravda ..	337	329	Admits European patients also.
Dharwar	164	160	
Ahmedabad	168	169	

*The amounts spent on Original Works (Major and Minor) at the Mental Hospitals are excluded from the expenditure in calculating the cost per patient per annum.

†The increase in cost per head is largely due to an excess of expenditure on diets at higher contract rates as compared with those of previous year.

Employment and Amusements.

18. The employment of suitable patients on such works as weaving, carpentry, cane work, tailoring, needle work, gardening, cobbling, grinding, etc., and helping in the domestic duties (such as cooking, sweeping) connected with Mental Hospitals, continued as in previous years. Under the beneficial influence of occupational therapy some of the patients employed made remarkable progress and improvement in their mental condition by concentration of their mind and were discharged as cured. The value of this therapy in calming the violent and boisterous patients cannot be overestimated.

19. An amount of Rs. 2,041 was expended on amusements and recreation to patients in the several Mental Hospitals. The amusements and recreation generally consist of items such as picnics, Cinema shows, motor drives, sweetmeat, music, out-door games, socials, newspapers and books, etc.

Visitors.

20. The official visitors at all the Mental Hospitals were regular in their attendance and the remarks passed by them were satisfactory.

General.

21. The scheme of the provision of special accommodation and facilities for patients who are prepared to pay for such additional amenities introduced at the end of last year as an experimental measure, at the Central Mental Hospital, Yeravda, has proved a success during the year under report and there is demand for more special accommodation. Government have, therefore, sanctioned the continuance of the scheme for a period of one year more at the end of which a report showing how it has worked will be submitted to them.

22. A thresh disinfector was provided at the Central Mental Hospital, Yeravda, at a cost of Rs. 4,235, during the year under report.

23. A summarised report of the Central Mental Hospital, Yeravda, is published as an appendix.

I have the honour to be,
Sir,
Your most obedient servant,

(Signed) H. C. BUCKLEY,
Major-General, I.M.S.,
Surgeon General with the Government of Bombay.

Annual Report of the Central Mental Hospital, Yeravda, for the year 1937.

Administration.

The permanent Superintendent Lt.-Col. E. C. A. Smith, I.M.S., proceeded on leave ex-India on 1st October 1937, and was relieved by Captain W. W. Laughland, I.M.S., who continued to officiate for the remainder of the year.

Accommodation and Population.

On the 1st January 1937 there were 1,041 patients as compared with 966 patients on the same date of the previous year.

The daily average number in residence was 1,093 as against 1,008 for last year.

The present hospital accommodation has been estimated at 897 and the hospital population on the last day of the year was 1,131.

A temporary structure to accommodate 80 Indian patients was constructed during the year. Work on a similar structure was started in December 1937 and will be completed in February 1938.

Work on the Major Scheme to provide additional accommodation for 250 patients is in progress and should be completed in March 1938.

The total hospital accommodation will then be 1,227.

The overcrowding at present has reached a potentially dangerous level and admissions are being limited to dangerous, degraded and suicidal cases. This restriction will be relaxed as accommodation in the new extensions becomes available.

Admissions.

Admissions during the year were 345 males and 142 females ; a total of 487 as against 428 for the previous year.

Of these admissions, 47 were Voluntary Boarders and 8 were re-admissions.

The total number of patients treated during the year was 1,528.

Of the patients discharged from hospital during the year, 178 patients were considered as " recovered ", 63 as " improved ", 49 as " not improved " and 34 as " otherwise ". The last group includes 4 Military cases transferred to the United Kingdom, one male patient transferred to the Mental Hospital, Hyderabad (Deccan), and one female patient transferred to the Mental Hospital, Calicut.

There were 73 deaths during the year. The death rate, worked out as a percentage of the average number in daily residence, was 6·67. 27 patients were admitted in a seriously ill condition ; 12 died within one month and 9 within two months of admission. 27 patients were over

50 years of age at death. Five patients had had hospital residence for 55, 37, 30, 26 and 25 years respectively.

The general health of the hospital was good. There was no epidemic disease during the year.

Special Facilities.

During the year a scheme has been instituted for the provision of special facilities for special classes of patients. This has been greatly appreciated by the patients and by their relatives.

One block for 4 male patients and one for 3 female patients have been selected and each patient has his own private room specially furnished with door and window curtains, dressing table, chest of drawers, soiled linen box, teapoy, towel stand, easy chair, 2 small carpets, bed-spring mattress with mosquito curtain, rugs, etc. There is a demand for more special class accommodation than we can provide at the moment, but next year it will be possible to allot additional accommodation.

Financially the scheme has been a success and there has been an income of Rs. 6,384 since 1st January 1937.

Occupational Therapy.

About 55 per cent. of the patients take part in some form of occupational therapy: carpentry, french polishing, cane work, weaving, cobbling, rug making, spinning, ginning, gardening and farming, knitting and needlework, cookery, physical exercises, conducted walks, cricket, foot-ball, hockey, tennis, croquet basket ball, badminton, billiards, concerts, cinemas, wireless, picnics etc.

The value of occupational therapy in calming violent and boisterous cases cannot be overestimated. There has been a profit to Government of Rs. 17,265 from the working of the various departments of the occupational therapy treatment. This includes Rs. 10,236 profit from the hospital vegetable garden.

Recreation.

Through the generosity of Mr. A. C. Patel, Proprietor, West End Cinema and the Manager of Madan Theatres Ltd., Poona Circuit, well-behaved patients were admitted free to these theatres three times a week. Many of the male patients were given an opportunity of witnessing the cricket match between Maharashtra and Lord Tennyson's team.

Cricket, hockey and football have been played by the male patients in the appropriate seasons and tennis during the dry months. In addition, the Indian patients were encouraged to play many of the out-door games familiar to them.

The facilities for outdoor recreation for the female patients have been extended. Two new tennis and badminton courts have been provided in an area remodelled to represent a modern garden suburb. This has been greatly appreciated as it affords a pleasing diversion to both players and non-players. The weekly social functions and the monthly dances (when the male and female patients able to appreciate these entertainments, foregather in the recreation hall) are greatly enjoyed.

Several entertainments by Indian Concert parties and jugglers were provided during the year.

We are indebted to the Concert Party of the Royal Tank Corps, Kirkee and to the Officers and men of that unit for their many voluntary efforts to make the lot of the patients a happier one.

Staff.

The increase in the Staff sanctioned in Government Resolution, General Department, No. 4192, dated 31st July 1936, has been fully entertained in the year under report and there are at present two Medical Graduates for post graduate training, a Woman Assistant Surgeon B.M.S. Class II and a part-time S.M.S. Officer on the permanent Medical Staff.

Two S.M.S. Officers posted at this hospital, *vide* G.R., G.D., No. 1486-33, dated 10th September 1936, received training in mental diseases during this year.

Quarters for 48 attendants were constructed during the year, and administrative approval has been given to the construction of quarters for 2 clerks, 2 compounders and 48 attendants which it is hoped will be started in the financial year 1938–39.

Finance.

The total receipt during 1937 was Rs. 5,91,104 as against Rs. 4,70,906 for 1936. The amount received from paying patients was Rs. 1,35,951.

Acknowledgments.

I wish to express my appreciation of the splendid work done by the Visitors' Committee, of the generosity of Mr. A. C. Patel and the Madan Cinemas, and of the consistent interest of many Parsi well wishers who either in gifts or kind have remembered our patients.

(Signed) W. W. LAUGHLAND,

Captain, I.M.S.,

Superintendent,
